

## Mining Magnates to Meet in Quaker City; Mining Exposition to be Held Coincident With Convention

Top, rescue crew of the bureau of mines. Bottom, left to right: John Hays Hammond, Joseph A. Holmes and David W. Brunton.

Philadelphia will entertain the prominent mining men of the country in the annual convention of the American Mining Congress to be held October 20 to 25. Among the prominent men who will attend the convention will be David W. Brunton, president of the congress; John Hays Hammond, the mining engineer who won fame and millions in the gold and diamond mines of South Africa, and Joseph A. Holmes, director of the United States bureau of mines.

## CONFESSES BOX CAR ROBBERIES

Well Organized Gang of Thieves Operate in Intermountain Country.

Nampa, Ida., Oct. 22.—Through a confession obtained from George Klontz, of Salt Lake, who with Geo. Thomas is under arrest here, Chief of Police Maloney declares he has broken up one of the most thoroughly organized gangs of thieves operating in the northwest. The confession implicates three others who may be captured in a few days and reveals a system of box car and store robberies that have been committed in various towns between Huntington and Salt Lake.

Klontz and Thomas had several hundred dollars worth of new merchandise in their possession at a local hotel and the former has re-

vealed the location of several caches in other towns. Thomas had in his possession a check for \$600, drawn on Walker Brothers bankers, Salt Lake, in favor of W. H. Holmes and signed by George H. Morgan, and a Short Line railroad ticket good between Huntington and Ogden issued to V. Lee. These are connected with holdups committed lately. Klontz was formerly a brakeman on the Short Line out of Pocatello.

**WILL FACE SECOND CHARGE.** Salmon, Ida., Oct. 22.—In the district court the case of W. Lottridge, late cashier of the Leadore State bank, charged with making a false report to the state bank commissioner was dismissed on account of a discrepancy between the information and the commitment. Judge Stevens has granted a motion on behalf of the state to proceed with a second action against Mr. Lottridge, pending an appeal to the supreme court on questions involved in the first action.

**ERRORS ARE CORRECTED.** Provo, Oct. 22.—At the meeting of the city commission this evening Recorder Fred Evans presented his report of the canvass of ballots cast in yesterday's primary election, which is as previously reported, except in the

vote for auditor. This is 940 for Elliott and 703 for Miss Brown, the error occurring through a mistake in the report from the Third district, which was reported as 69 for Elliott and 130 for Miss Brown, the figures being transposed, and a mistake in the Sixth district count for Halladay as commissioner, giving him 72 votes instead of 73, which makes his corrected total 638.

**BURY TOOEE PIONEER.** Tooele, Oct. 22.—Funeral services for James Howell were held today from the South ward meeting house. Bishop E. N. Atkin conducted the services, and addresses were made by C. A. Orrie, John A. Bevan, Matthew Speirs and Moroni England. A special musical program was rendered—Samuel W. Lee being in charge of a quartette and Miss Catherine Gillespie sang a solo. Special numbers by the choir were also rendered. Interment was in the City cemetery. Mr. Howell was one of the pioneer merchants of the city, having settled here after coming from England in 1855. He is survived by his widow, five sons, three daughters and sixteen grandchildren.

**PLANS TO COVER UP NORTH TEMPLE DITCH** Salt Lake, Oct. 22.—Richard P. Morris, street commissioner, has about decided to include among his improvement plans for 1914 the construction of a covered aqueduct for the North Temple street ditch down which flows the surplus waters of City creek and the Salt Lake and Jordan canals.

For several years property owners have been clamoring to have the water course covered, declaring it to be a menace to the safety of children along the street and an obstruction to traffic. It has been figured by the city engineer that the improvement can be made at a cost of \$28,000. An attempt will be made to have this amount appropriated out of the 1914 budget. Members of the commission discussed the matter informally yesterday and were agreed that something should be done next year.

**GUS CHRISTIE FIGHTS TO STOP SULLIVAN**

Fond Du Lac, Wis., Oct. 22.—Gus Christie failed to stop Jack (Twin) Sullivan this evening, but he won every round of the ten save the last by a wide margin.

Sullivan made an interesting fight by his great cleverness and remarkable gameness. He stood up under punishment enough to stop a dozen ordinary men.

Christie was on top of his opponent at all times, giving Sullivan no chance to get set. The rounds, up to the tenth were about alike. Christie springing from his corner at the bell and driving Sullivan before him around the ring with straight lefts to the face and tearing right and left uppercuts to the body.

In the tenth Sullivan caught Christie off guard and got home a right to the jaw, wrestling Christie to the floor in the ensuing clinch. The veteran then spurted and brought the crowd to its feet with a dashing attack at the gong.

**TERRIFIC RAINSTORM AT GALVESTON, TEXAS** Galveston, Tex., Oct. 22.—As a result of the terrific rainstorm that began here early today, the entire city tonight is under water the rain is still falling in torrents.

At an early hour this afternoon practically every business house in the city and all central institutions closed in order that owner and employees alike might go home. Street car traffic has been tied up since noon and boats are seen going about the streets. In many of the business establishments the water has risen to a depth of a foot and is still rising. The weather bureau reported that the rainfall during the day was ten inches.

No estimate has been made as to damages already done, but it will reach thousands of dollars.

## UNCOVERING A SWINDLE

Salt Lake, Oct. 23.—What is believed to be a well organized swindling scheme is being investigated by the police as a result of discoveries made by Captain M. M. Woods, superintendent of the Salt Lake Charity association. Several days ago a young man called on Captain Woods, asking for aid until he should receive money from his parents in Berkeley. He gave his name as George Howard Hughson and said that his home was at 2810 California street, Berkeley. In answer to a telegram of inquiry, Captain Woods received a wire yesterday from Mrs. Hughson denouncing as an impostor the young man who had applied to him.

When the alleged impostor presented himself to Captain Woods, he showed a telegram purporting to be his father in Berkeley, promising \$100 to be sent immediately by mail. He explained that he received the telegram in Wells, Nev., last Saturday, but that not wishing to remain in Wells he had wired that the money should be sent to Salt Lake.

The fact that the telegram was written in lead pencil aroused the suspicion of Captain Woods. He furnished the young man with money to buy food but immediately began to investigate. With the aid of a Berkeley city directory, he quizzed the young man concerning other members of the family to which he claimed to belong and found him ignorant. It was then that he sent a telegram of inquiry. In the meantime the young man had wired for money, signing the name George H. Hughson. Because the initial H. was used instead of the name Howard, in the signature attached to the telegram, the genuineness of the identity of the sender was suspected.

**MUCH WANTED MAN.** Denver, Oct. 22.—In the arrest of A. C. Vagner, alias Oscar Johnson, aged 28, the authorities believe they have in custody a man wanted in several cities on the charge of forgery.

The man is held on the order of the authorities at Ogden, Utah, who stated that he was wanted there for obtaining money from a bank by forgery. Vagner is said to have made a confession to Inspector DeLue. The police assert that Vagner is also wanted in Salt Lake, Cheyenne, Pocatello, Seattle and Portland on like charges. He will be detained until authorities from Ogden arrive and take him in charge.

**CONTINUES KALLIAS CASE.** Provo, Oct. 22.—On motion of the prosecuting attorney the case of the state against James Kallias, charged with murder has been continued until November 17. The illness of two important witnesses for the state was the ground for the motion. Kallias is charged with killing of Joe Sanchez at Colton, August 1.

The following jurors have been accepted for the October term from a venire of twenty-five: John Cochran, Samuel A. Jepperson, John H. Collins and Samuel Liddiard, Provo; Joseph B. Clyde, Mapleton; George J. Hansen, Spanish Fork; Leonard Bates, Alpine; Albert W. Harmer, Springville; Charles E. Gale, Payton; F. C. Banks, Pleasant Grove. The following additional jurors to be in attendance Thursday, when the trial of Fred S. Dard in an appeal liquor case will be held, have been drawn: George Bain, W. S. Holaday, Provo; Geo. Ball, John R. Giles, Lehi; John H. Francom, Thomas Cloward, Payson; Richard W. Cook, Jos. H. Jenkins, Goshen; James Anderson, Benjamin; John Askew, American Fork.

**FITZSIMMONS TELLS HOW HE LOST TO JEFF**

New York, Oct. 22.—Robert Fitzsimmons told Supreme Court Justice Bartow S. Weeks and a jury today how he lost the world's championship to James J. Fieffris in their fight which took place in San Francisco on July 25, 1902. Fitzsimmons said:

"I was so busy chopping Jeff to ribbons that I left an opening over my shoulder. I hit Jeff a thousand times, he hit me once. But that was enough. I wasn't knocked out, just paralyzed. But he was a sight when I saw him half an hour later in the dressing room."

Fitzsimmons' story was part of the testimony offered in a suit for slander brought by Joseph Egan, a boxing promoter, against a New York magazine.

**SALT LAKE BUYS WATERSHED LAND**

Salt Lake, Oct. 23.—Another important step toward the acquisition of watershed lands now held in private ownership will be taken by the city commission this morning in the purchase of 555 acres on the north slope of City creek canyon from J. F. Marshall and others.

Last August the land was offered to the city at \$12 an acre. The city filed the offer and submitted a compromise offer of \$10 an acre. This was accepted yesterday by the owners, who notified W. H. Bramel, special land and water attorney for the city. Mr. Bramel put the matter formally before the commission this morning and it is expected the deal will be closed.

Of the total amount to be paid for the land one-half will be turned over on delivery of the deed and the other half will be paid in 1914 out of the new budget.

The land to be purchased includes nearly all of section 16, township 1 north, range 1 east, Salt Lake meridian. Through it courses one important tributary to City creek and a number of valuable springs are located thereon. Its acquisition is considered essential to the consumma-

tion of the city's policy of gaining possession of all watershed lands calculated to increase its water right holdings and protect its watershed.

**RESTAURANT KEEPER HELD GUILTY; FINED**

Salt Lake, Oct. 23.—As a result of activity in Milford on the part of A. Toone, deputy of the state department of labor immigration and statistics, T. Mijasaki, Japanese owner of the Ohio restaurant at Milford, was yesterday afternoon found guilty of violating the nine-hour law and fined \$35. Mrs. H. T. Hanks, proprietress of the Hanks hotel, was also arraigned on the same charge, but asked for a change of venue. Her case will probably be taken to Newhouse for trial.

Report of the conviction of the Japanese and the arraignment of Mrs. Hanks was made by wire yesterday afternoon to H. T. Haines, commissioner of the department. The cases were taken before the justice of the peace at Milford. The arrests were made Tuesday and Mr. Toone declares that he has evidence that others are violating the law which prohibits employees from working girls more than nine hours a day or more than fifty-hour hours a week.

**CONFESSION OF BOY MAY CAUSE ARRESTS**

Salt Lake, Oct. 23.—Through the confession of Walter Rolce, 18 years of age, the police believe they will be able to identify Charles and William Samuelson, the two youths charged with robbing a Japanese of \$1500 in Pioneer park a week ago, as the highwaymen who attempted to hold up J. G. Morrison of 877 South First West street within a few rods of his home on the night of September 20.

According to the police, Rolce, who is under arrest for alleged bicycle stealing in which the Samuelson brothers are said to have had a hand, has confessed that the brothers told him that they made the attempt to hold up Mr. Morrison, which resulted in a pistol battle in which the hold-up were routed. Mr. Morrison said last night that he has no idea whether or not the Samuelson brothers or one of them was responsible for the attack. He said that he saw only one man, and after the battle saw him speed away on a bicycle. Citizens in the neighborhood at the time of the affair told the police of seeing two bicyclists and it was thought that one man acted as a lookout.

Mr. Morrison will be given an opportunity today to listen to the story of Rolce and will then face the Samuelson youths. He does not hope to recognize either, but thinks that a comparison of the story said to have told by the boys to Rolce and the actual occurrences of the affair might lead to a clew.

**PULLING FOR TELEPHONES**

Pocatello, Ida., Oct. 22.—The Aberdeen Commercial club has undertaken the task to secure a telephone exchange for that town and surrounding country. A committee composed of President E. W. Harold, J. T. Dwyer and J. A. Toney are in Pocatello in consultation with Manager Kincaid of the Mountain States company. It is believed that a local exchange will be installed at Aberdeen between sixty and seventy patrons. The committee report Aberdeen to be in a flourishing condition.

## MIKE YOKEL IS DOWN TO WEIGHT

Salt Lake, Oct. 23.—A question that has been puzzling the friends of Mike Yokel since he signed articles for a return match with Champion Chris Jordan, was whether the local pride could make the required weight of 155 pounds at 8 o'clock the night of the match and still be strong enough to cope with the tough Greek. This question was answered in the affirmative yesterday afternoon, when Yokel stepped upon the scales after he had finished his workout. He was less than a pound over the required weight. This will be great news for Mike's friends, as many of them have feared that he would have to resort to drastic training methods in order to make the weight and thereby weaken himself so that he would not be fit. This fear was entirely dispelled yesterday and his friends will no doubt make him a stronger favorite in the bout than ever.

It will be remembered that some time ago when Jordan took the championship title from Yokel, the latter was far below weight, and was apparently not at his best. His friends say that was due to sickness and not to hard training. Since that time Yokel has taken on considerable weight and was over the limit when he began training for the Jordan match, so that his weight now is all solid bone and muscle and he looks to be in shape to wrestle the bout of his life.

Yokel has nothing on the Greek in this respect, as Jordan also looks as though he were in perfect physical condition and in his training seems to have no end of endurance. He is naturally a little under the middle-weight limit and never has to bother about taking off weight; in fact he trains to build up for important matches like this one. He will be at least five pounds heavier for this match than when he last met Yokel.

**WILL VOTE ON OPTION**

Pocatello, Ida., Oct. 22.—After several days of wrangling by attorneys representing the "wets" and the "drys" before the board of commissioners, the board has finally decided that there are enough legal names on the petition filed some time

ago to call the petition filed some time ago to call the election to vote on local option. The election will be called in December. More than 2000 names were on the petition, but in some cases the addresses were omitted and in others the husband signed for the wife. All of these names were thrown out. There still were about 115 names to the good after those sufficient to call the election.

**NEW FIRM FOR PROVO**

Provo, Oct. 22.—The Mutual Benefit Farming and Fruit Growing company has filed articles of incorporation with the county clerk. The object of the incorporation, which is for \$30,000, is to deal in the operate land and water rights to cultivate and deal in agricultural and horticultural products, etc.

The directors and officers are: W. H. Ray, president; Gps V. Thurgood, secretary; Lottie L. Ray, treasurer; George Wheable.

**HILLTOP DISTRICT IS THRIVING CAMP**

Salt Lake, Oct. 22.—That the Hilltop mining district in Lander county, Nev., is in a thriving and prosperous condition, due to the successful operation of the 10-stamp mill and cyanide plant of the Kimberly Consolidated Mining company, is the report brought to this city yesterday by J. Nelson, the original locator of the Hilltop mine.

Mr. Nelson and his sons were among the first to go into the Hilltop district and have taken an active and interested part in its development. In fact, the senior member of the family is called the "Father of Hilltop." He reports that the monthly output of the Consolidated company, which is operating the Hilltop and Philadelphia Western mines, amounts to about \$15,000 since they put in the cyanide plant which is being worked to full capacity at present.

The old Bullion district, adjoining the Hilltop district on the south, is also receiving considerable attention from outside interests. Salt Lake mining men have been in there with a view of obtaining control of several properties. Mr. Nelson's visit to this city is more especially in connection with financing options which he holds on two well developed mining properties in the Bullion district—the Silver Side and Standby mines. From the former in early days more than \$80,000 in silver was taken. The latter has been worked by the owner for about twenty years, and a large vein of quartz rock, mostly containing silver, has been opened up and followed for more than 250 feet, and recent assays show sixty ounces silver and \$1 gold to the ton.

**IRRIGATION FUNDS AVAILABLE SHOULD BE SPENT SAYS NEWELL**

Boise, Ida., Oct. 22.—F. H. Newell, director of the United States reclamation service in Idaho, gave the Commercial club here tonight took strong grounds in favor of federal aid for Carey act projects that have been held up through lack of financial support. He said there was still \$20,000,000 available for the \$100,000,000 advanced by the federal government for irrigation purposes, and that this \$20,000,000 should be utilized by the department in co-operation with the states in putting these limping projects on their feet.

At the same time Director Newell insisted that the west must make good; that there must be no hint of repudiation of any part of the obligations in any part of the west, and that the west must see to it that bona fide settlers upon the land and that it must not be bought up by speculators in the east and elsewhere who have no intention of making improvements, but who hope to make profits out of the toll of others.

Strong resentment was aroused here by an editorial in the New York Times of recent date denouncing the policy of Secretary Lane and ending up with this remark: "The congressional pork barrel has poured forth its millions almost like water upon the irrigated western farms. It is time to end a lot of cant on this subject and to ask whether the policy of reclamation repays anybody but the immediate beneficiaries."

Director Newell asserts that there was no "pork barrel" policy in the reclamation service, that every dollar put into the irrigation of western lands by the federal government was to be returned by the settler. In this, he said, reclamation differs from the appropriations made for rivers and harbors in the east and south, which are outright gifts from Uncle Sam, no part of which is ever to be returned.

**BOOST FOR NEW ROAD**

Salmon, Ida., Oct. 22.—County Surveyor Crandall has completed the preliminary survey of the proposed road from Gibbonsville into the Bitter Root valley. This will be a link in the "Park to Park" auto road. According to County Commissioner C. M. Hull, who has recently returned from a trip to Hamilton, Mont., the Ravalli county officials are enthusiastic for the road and will meet the Lemhi county workers at the summit and continue the work on the Montana side.

**RECEPTION FOR TEACHERS**

Pocatello, Ida., Oct. 22.—This evening a special reception was held by the Civic club and Commercial club to visiting pedagogues during institute at the Commercial club rooms. The reception committee consisted of President and Mrs. Miles F. Reed, Mr. and Mrs. Snyder and Mrs. Cosgrove, county superintendent of schools. The Commercial club reception committee consisted of Messrs. G. T. Bailey, Noah Pond, H. T. Peterson, W. A. Jones and W. T. Caravalla. Music and refreshments helped to make the evening pleasant. Eight hundred teachers and townspeople were in attendance.

**WILL BUILD NEW BLOCK**

Brigham City, Oct. 22.—The new business block contemplated for North Main street was practically assured yesterday when Grant Hampton, secretary and treasurer of the Consolidated Wagon and Machine company of Salt Lake spent the day here inspecting the site for the new building that is to be occupied by his firm, and also approving the plans for its construction. The building will be erected by E. W. Dunn of this city, who recently was successful in acquiring title to the Baker Lumber company, just north of the First National bank building.

## SUIT AGAINST UTAH COMPANY

United States Files Action to Prevent Taking Waters Belonging to Indians to Decide Priority.

Case a Precedent and is Keenly Watched by Intermountain Water Users.

Suit was filed yesterday by the United States, as guardian and trustee of 277 Indians on the former Uinta reservation, against the Uinta River Irrigation company to restrain the latter from taking waters alleged to belong to the red men.

The case is to determine priority of water rights along the White Rocks river, a stream that has its source in the former reservation. The irrigation company claims priority in that it filed its application for water to the state engineer of Utah before the Indian agent filed on it for his wards.

The government claims that the appropriation of water was invalid for two reasons, namely that defendant attempted to file his application prior to the opening of the reservation, to be used on lands in the reservation which was not subject to appropriation, and second, that the company's rights are inferior to the rights of the Indians because, in the allotment of lands to the aborigines, there is an implied reservation of sufficient water for the uses of the Indians.

The case is, in a way, a precedent and will be keenly observed by persons interested in similar cases. The filing of such a suit was made possible about a year ago by the circuit court of appeals, which ruled, in reversing a decision of the district court, that the government could bring any kind of suit into a federal court for its wards, the Indians.

In the complaint, filed by Hiram E. Booth, United States district attorney, the names of the 277 Indians are set forth, together with descriptions of the parcels of land held by each. Among the government wards are Messrs. Shawtonbachicut, Kupa-ab-no-roof, Cuch ow - so-watz, Sawconcut, Uganachomp, Peto-sh-shook, Kichamponasnew, Maccheek-ant and Tabby Weep White, the latter now being in jail, serving a life sentence for murder.
